YOUR TEMPORARY SOLUTION TO A PERFECT SMILE

Want to enhance your smile, but are reluctant to go through with the investment? InStyle Smile, exclusively fabricated by Trident Dental Laboratories and your dental professional, is the ideal removable appliance that delivers a perfect smile for just about any special occasion and everyday use. No longer will you have to question the outcome of your cosmetic dental treatment. Both you and your dentist will enjoy its simplicity and the benefits provided by InStyle Smile - "The Removable Veneers".

WHAT IS INSTYLE SMILE?

InStyle Smile is a temporary, removable dental appliance ideally used as a diagnostic tool by the dentist. It instantly shows you what your enhanced smile can look like; especially, if considering cosmetic dental treatments such as; crown and bridge, permanent veneers, implants, inlays, and even whitening.

Unlike most other temporary smile enhancers or templates, InStyle Smile is custom fabricated for you and provides a natural looking smile that can be worn confidently for any occasion such as; weddings, dinner parties, and job interviews where you would want to have a radiant smile.

HOW COMFORTABLE IS INSTYLE SMILE TO WEAR?

InStyle Smile requires no prior dental work and delivers the utmost in comfort. Custom fabricated with a soft inner lining, you will enjoy and feel confident wearing your InStyle Smile!

HOW LONG DOES IT TAKE TO FABRICATE YOUR INSTYLE SMILE?

In three easy steps and two dental visits InStyle Smile is ready to be delivered! During your first visit to the dentist, an upper and lower impression along with a bite registration is taken, you select your preferred tooth shape and shade, and the case is shipped to the Lab for fabrication. InStyle Smile is fabricated in 7 business days and is ready to be delivered during your second visit.

HOW LONG WILL INSTYLE SMILE LAST?

The lifespan of the product is 5 years under normal wear and tear contingent upon the daily care of the appliance.
